

“We have been rapidly learning about COVID-19 from various health agencies to mitigate the potential spread and circulation of it at Pelican Valley Senior Living,” comments Tyler Ahlf, Administrator at Pelican Valley Senior Living.

He continues, “We have researched how the virus has spread—and want to be focused on leading efforts that increase awareness using fact-based evidence to protect our residents. The more we can to prepare for this and provide education about the virus, while remaining calm, the better.”

In the outbreak of an epidemic *early* counter measures are important Our World in Data

Their intention is to ‘flatten the curve’: to lower the rate of infection to spread out the epidemic. This way the number of people who are sick at the *same time* does not exceed the capacity of the healthcare system.
