

PVSL COVID-19 Update

July 31, 2020

An Update on Our Response to the Coronavirus (COVID-19):

Each day we continue to take every precaution in the fight against this invisible virus. The safety of our residents and staff continues to be the highest priority. Screening, PPE, infection control and testing are routine ways of living and working. As of today, we have completed three rounds of testing out of precaution keeping safety at the forefront of what we do. Testing will continue going forward and we cannot underestimate how valuable this is to be proactive in our approach to responding to COVID.

As of today, there are no active cases of COVID at Pelican Valley Senior Living.

We are also working toward introducing our Essential Caregivers program and reconnect caregivers and residents who may need extra support. Keeping families and loved ones separated has been challenging for us all. We are grateful for the support you've demonstrated while we work through the various health recommendations from various agencies together. Thank you!

We will continue to provide updates to you to keep you informed of our ongoing work. **Please note: This is a fluid situation and updates are in continuous development. Help us keep family and loved ones informed by visiting our website:** <http://pelicanvalleyseniorliving.org/coronavirus/>

*Health agencies providing recommendations to us include the Centers for Disease Control and Prevention, World Health Organization, Centers for Medicare and Medicaid Services, local medical advisors and public health advisors among others.
